Expiration: January 28, 2011
IRB# RIH IRB 1: IRB00000396
RIH IRB 2: IRB00004624

Please include information on the next page regarding standard educational summary paragraph in DHHS applications beginning October 1, 2000.

Standard Summary Paragraph Educational Training

Since October 1, 2001, Lifespan has required that researchers and IRB members read Protecting Study Volunteers in Research (Dunn & Chadwick) and complete the related exam. This process has served as initial certification.

In June, 2005, [the Office of Research Administration](#) contracted with CITI, a Collaborative Institutional (modular) Training Initiative program, for our Human Subjects protection and HIPAA training for all research personnel. Currently this program offers our researchers a basic human subject's protection course as well as a refresher course which we require every three years. Documentation of successful completion is automatically generated and [should](#) be printed directly by the researcher.

Additional and continuing education opportunities for clinical researchers include the Office of Research Administration newsletter that is circulated to > 900 recipients every 6 weeks. Relevant information concerning research review is available on the ORA web page at www2.lifespan.org/research/. In addition to standard institutional research information, the web page contains links to other sites such as CenterWatch, NIH, PRIM&R/ARENA.
